- From back of curb or sidewalk, front porch may project 5' into required front setback
- 0' setback for shared wall, 20-foot between structures.
- 10' feet additional setback required for each additional story above 65-feet
- 30' when adjacent to residential land uses, 0' setback when adjacent to commercial
- Height shall be limited to 35-feet within 100-feet of the perimeter property line abutting residential uses in Tracts 1 & 8
- Permanent Single Family Detached Residential Units in Tract 4a shall meet the SFDE standards and shall be limited to 30% maximum lot coverage. The maximum lot coverage for Single Family Detached units in Tract 4a may be increased to 60% if such dwelling units qualify as transient units/occupancy as determined by the County. Other types of permanent residential units may be allowed in Tract 4a provided a minimum of 50% common open space is provided.
- Permanent Dwelling units in Tract 4a shall not exceed 100 dwelling units. Except for Permanent Dwellings units in Tract 4a, the internal transfers of residential units shall be permitted between residential Tracts 2-8, provided there is no change in density within 100-feet of the overall project boundary or within 100-feet of any tract if there is a different owner than the applicant requesting the change.
- Approximate Tract boundaries, golf course layout, roadway locations, and access points are shown. Final locations of these items will be determined through the site plan review process.
- Wetland locations and subsequent wetland impact locations are approximate. Final wetland locations will be determined through the permitting processes with the SWFWMD and the ACDE. Wetland buffers will be provided as required by the Pasco County Land Development Code or appropriate agency regulation.
- Neighborhood Parks will be developed in accordance with the Pasco County Neighborhood Park Ordinance. Locations of Neighborhood Parks to be determined through the Preliminary Site Plan review process.
- Connectivity to the multi-use trail shall be demonstrated during preliminary plan review for each individual tract.
- A helicopter landing pad may be located in Tracts 3, 5 or 7.
