Tampa, FL 33612

RE: Administrative Modification to the 2040 Pasco County Long-Range Transportation Plan -
S.R. 54 (Curley Road to Morris Bridge Road)

Dear Mr. Beaty:

The Pasco County Metropolitan Planning Organization (MPO) is making an administrative modification to the adopted Pasco County 2040 Long-Range Transportation Plan (LRTP) Cost Affordable Plan. The modification includes a minor change to the existing description of the project limits. The modification changes the existing description that reads - S.R. 54 from Zephyrhills Bypass West Extension to CR 579 (Morris Bridge Road) to a new project description - S.R. 54 from Curley Road to C.R. 579 (Morris Bridge Road). The LRTP Table B-1, Existing and Committed Roadway Capacity Improvements, Fiscal Year 2014-2019 is revised to reflect this change. The modification is intended to provide planning consistency for the re-evaluation by FHWA. Please see the original and revised Table B-1 that are attached indicating the change.

If you should have any questions or comments regarding the amendment, please contact me at the above-listed number.

Sincerely,

James H. Edwards
Transportation Planning Manager

JHE/MR/MPO/beaty_administration_modification_2040lrtp_ltr
