

# KEY VISTA/BAILLIE'S BLUFF RESTORATION

---

Parks, Recreation, and Natural Resources

**PROJECT AREA**  
**Key Vista Nature Park**

# Project Components

- Dredge portion of the channel as determined by bathymetric survey to restore flows in and out of bayou.
- Stabilize shoreline with rip-rap to prevent further erosion.
- Construct fishing platforms above rip-rap to allow public access to fishing.
- Repair/ replace culvert to allow for flushing.
- Use planting in rip-rap to stabilize banks.
- Improve the kayak launch and trail for better public access.
  
- Project Cost: \$500,000. Potential to be partially funded using RESTORE/ Parks funding/ MSBU on local residents.

# Rocky Creek

# Applicability to RESTORE

## ➤ 1. Provides Restoration and Protection of Natural Resources (NR)

- NRs identified and will be protected or restored; but lifespan of protective measures or restorative effects estimated at 5 to 10 years.
- Actively protects state and federally listed plant and/or animal species. Protection is in perpetuity through conservation easement or other similar instrument.
  - West Indian Manatee uses this area.
  - Key Vista Nature Park is a passive use park intended to provide some protection to species in the park.

# Applicability Continued.....

- 2. Mitigates damage to fish, wildlife or natural resources
  - Project intentionally halts existing impacts. Has some limited direct impact as well as long to mid-term indirect impact. Positive impact noted on recreational fishing and wildlife use. Natural resources benefit to a limited degree. Some short term water quality achieved
  
- 4. Workforce Development and Job Creation
  - Project provides a surplus of available work for existing workers within the County and maintains the current number of public and private sector jobs. All jobs are considered to be part-time or full-time temporary lasting one year or less upon start of project. Work created is temporary in duration.
  - .

# Applicability to RESTORE

## ➤ 6A. Infrastructure Projects Benefitting Economy

- Positive benefit is realized by a more than one neighborhood.

## ➤ 6B. Infrastructure Projects Benefitting Ecological Resources

- Project has a direct measurable benefit to an ecological resource with benefit, enhancement, or restoration goals, and the benefit corrects a deficiency or restores a function to at least (75% of such goals).

## ➤ 9. Promotes Tourism and Recreational Fishing

- Some effect on tourism expected on a seasonal basis. Some economic income for the local area or city created as well as for small businesses.
