WHEREAS, pursuant to Section 107 of the Pasco County Land Development Code, the Board of County Commissioners is authorized to adopt by resolution all necessary fees for the administration, implementation and enforcement of the Land Development Code, and

INDDEPENDENT STUDY REVIEW TIMELINE

According to the Pasco County Mobility Fee Ordinance, the County shall charge a review fee for the Independent Study. Pursuant to the Ordinance, the fees charged shall not exceed the actual costs of the review.

Methodology Review - $1,748 ($1,520 + 15% County Administration Fee) – Plus (1) see page 5

This includes the initial review of the applicant's submitted methodology including review of proposed study sites, trip-characteristic survey forms/questions, and proposed data collection methodology. If the proposed methodology is not found to be consistent with the County methodology identified in Section 2.3 and cannot be accepted, a letter will be prepared identifying the methodology review findings, including why the methodology was found to be inconsistent with the County methodology guidelines identified in Section 2.3 and not found acceptable to the County. The summary statement will identify what remedial actions are necessary to correct the methodology so that it is acceptable. Once the corrections to the methodology are made, the applicant may resubmit the corrected methodology to ensure that proper changes to the methodology have been made and to seek final approval. If, following the first round of review, the applicant's methodology is found to be unacceptable; the applicant shall be subject to a fee of $842 ($732 + 15% County Administration Fee) for each additional round of methodology review.

"Most Similar Land Use" Consultation - $780 ($678 + 15% County Administration Fee) – Plus (1) see page 5

If a land use is not included in the adopted fee schedule, or the Appendix A Land Use Cross-Reference Table, a fee payer may request a determination of the "most similar land use" to use as a basis for the fee to be paid. The County will make a determination as an alternative to avoid the need for a fee payer to undertake the independent fee study. Applicant must provide information about the proposed land use, including the nature of the operation, licensing requirements, typical employment, building size, operating shifts and sizes, site service by suppliers' trucks and other service vehicles, market area, hours of operation, etc. The County will use the provided information, and other information at the County's disposal, to establish similarity to a land use already established within the fee schedule.

Study Analysis Review - $5,492 ($4,776 + 15% County Administration Fee)

Following the acceptance of the applicant's methodology, a detailed review of the trip-characteristic data will be completed and will include verification of trip lengths and percent new trips through a sample of the trip-characteristic survey data. The reasonableness of the traffic count data will also be reviewed, including verification of manual traffic counts, directional distribution, diurnal pattern, peak-hour consistency and time, analysis of variance between characteristics observed and characteristics of data upon which the County's published fee is based, and recommendations regarding a potential fee adjustment. Following the detailed review, written comments summarizing the review findings and recommendations will be prepared and forwarded to the applicant.

If the study submitted by the applicant is found to be unacceptable following the initial detailed review, written comments summarizing the reasons for this finding will be forwarded to the applicant and/or the applicant's consultant for correction and resubmittal.

Following resubmittal, if the County must reanalyze corrected data, the County shall charge the applicant for this additional work, which will be determined based on a percentage of the surveys required to be reanalyzed. Upon receipt of the re-submittal, the County will notify the applicant as to the additional fee, if applicable, based on the percentage of the analysis required to be reanalyzed and will follow the fee
schedule set forth in the Study Analysis Review. The County must receive payment for services prior to any subsequent reanalysis. The fee schedule for the survey reanalysis is presented in Table B-1 and is calculated by multiplying the Survey Analysis fee (prior to the 15% Administration Fee charged by the County) of $4,776 by the percentage of the surveys to be reanalyzed.
