

You found a litter of kittens? Leave them be!

Mom offers the best chance for survival and is likely out hunting and will return. The shelter cannot accept kittens under 8 weeks of age

Did Mom Come Back?

Yes

Hooray! Let mom care for her kittens until they are at least 8 weeks old.

At that point, make sure you get both mom and kittens spayed/neutered.

Whether the cats are friendly and handle able or community cats you can participate in our Spay/Neuter in Pasco (SNIP) program. Please visit our website www.mypasco.net/pas for more information

No

You would make a phenomenal foster parent! If mom has been gone for more than 8 hours, the kittens are most likely orphaned. During this time of year Pasco County Animal Services is overrun with homeless animals and doesn't have adequate resources to care for underage kittens in the shelter.

Visit www.mypasco.net/pas for information on caring for these babies in your home

Help Them Find Homes

Be on the search for friends, family or neighbors who are looking to adopt a loving kitten
